

I want to say thank you again to Leslie and Survivors on Purpose, for nominating me to be part of the 2016 panel of CDMRP (Breast Cancer Research Program).

I was and still am humbled for the experience of sitting on a panel with Doctors, Scientists, and others as they call us survivors the Experts.

My experience will ever be life changing because I can say I was part of the decision making process on at least 50 potential 2016 applications submitted for research related to finding a cure for breast cancer.
